The amendment submitted January 23, 2002 is improper in that it does not comply with the requirements of 37CFR1.173.

The amendment is improper in that

- ◆ All of claims 28-45 and 53-55 should be underlined since these claims are all new to the original patent. All of the words in these claims should be underlined since all the words are added to the patent text and no words should be bracketed since no words are being deleted from the patent text. Similarly, claims 56-73 are all new to the patent text and should be entirely underlined. The amendments to claims 16,19,21 and 24 in the "marked-up copy" are correct.
- ◆ There is no "clean copy marked-up copy" practice in reissue cases because 37CFR1.121 doesn't apply.
- ◆ The amendment should also state in the text portion what the changes are and where they find support in the specification. Note that prior to allowance, a supplemental declaration covering all claims added subsequent to the original claims will be required.

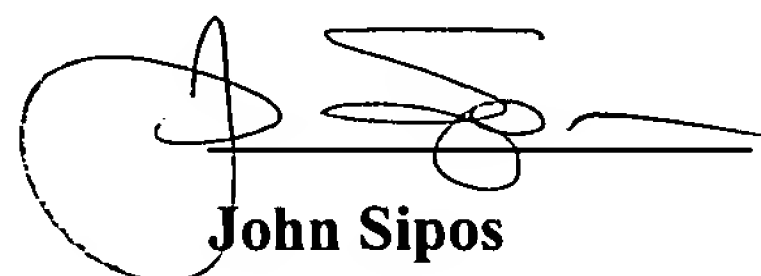

Regarding the request for an interview, upon the submission of an amendment complying with the Rules the interview request will be reviewed and considered.
